

# Reflections *in* Rhode Island

**A multi-media production based on the life stories of senior citizens currently living in the East Bay.**

**This script and production was awarded a RISCA Grant in 2016 allowing it to be performed in other theaters, senior centers and libraries around the East Bay.**

**This oral history begins in 1913 sharing detailed accounts of birth, school, life styles, weather and the devastating effects of WWII with the ensuing immigrations. Filled with music, videos, photos and home movies from 1920 this production is a moving and fascinating story of the century before. It was created as a loving tribute to the elders who formed the foundation of the lives we now lead and honors those still living with us.**
