Town of Barrington launches redesigned website

The Town of Barrington has officially launched its redesigned website: www.barrington.ri.gov

The new website provides a more streamlined, user-friendly experience with content that emphasizes the programs and services provided by the Town of Barrington. The Town developed the new site in coordination with RI.gov.

In addition to a completely new look, the site is now compatible with handheld devices.

Features of the website include:

- Town News and a community “Bulletin Board” highlighting the latest programs and other happenings with the Town.
- Access to the Town’s Twitter feed, with the latest news and announcements from departments. (Follow Barrington Town Hall @RI_Barrington)
- A “Top Topics” page providing access to information often requested by the public.
- Town forms and documents, including a guide for people opening a business in Barrington.
- Expanded contact information by department.
- Continued availability of on-line tax payments, Council agendas and meeting videos and other features found on the old website.
